PROFESSIONAL EXPERIENCE

Apprentice Carpenter, Bellevue, WA

October 2019 - December 2020

Performed clean installations aligning with customer specifications. Coordinated allocation of human resources and materials to complete projects. Communicated complex information to managers, customers, and peers.

- Designed and read schematics to deliver complex solutions to specific guidelines.
- Delivered solutions under intense time constraints and persevered through many obstacles to finish projects.
- Led junior team members with professionalism to learn and install systems according to best known methods.
- Ensured high levels of quality by applying a strong attention to detail and solving difficult problems with agility.

CB Technologies, Inc., Kirkland, Washington
Solution Architect, Network Administrator

September 2015 - October 2019

Liaison and support administrator for customers of Aruba and HPE networking equipment. Maintained cutting edge understanding of current versions of hardware and software. Escalated network issues to next level for resolution.

- Deployed complete systems in world class data centers.
- Configured servers and networking equipment.
- Provided strong technical networking and Aruba value to sales teams, engineering teams, prospects and customers.
- Developed skill in security of built systems with firewalls and encryption.

Hewlett Packard Enterprise, Alpharetta, GA
Solutions Architect Candidate

June 2016 - March 2017

- Engaged in a comprehensive training program for networking, storage, server, cloud, and Synergy systems.
- Successfully completed the 10-month training program for solution architects.

American Red Cross, Syracuse, NY
Program Manager - Social Media

January 2015 - May 2015

- Collaborated with teams to solve problems and solutions in support of Red Cross public image and engagement.
- Educated and evangelized technology to teams including software and web platforms.
